SUMMARY

Dynamic Software Engineer with **3+ years** of experience in **full-stack** development, optimizing frontend UI performance and backend efficiency. Skilled in **React, JavaScript, and Redux**, aiming to drive innovation in a fast-paced tech environment.

SKILLS

Technical Skills: React Js, Javascript, Html, Css, Typescript, React Redux, Redux Toolkt, Bootstrap, Node Js, Express, JWT authentication, React Hooks, React Router DOM, Mongoddb, Git Version Control, Bcrypt, Twilio SMS, Sendgrid Email, Restful API, Postman, VS Code, Cors

Soft Skills: Communication, Problem-Solving, Teamwork & Collaboration, Adaptability, Time Management, Creativity, Critical Thinking

EXPERIENCE

Associate Software Engineer

Cognizant Technology Solutions

April 2024 - Present, Bengaluru

- Engineered responsive UIs using HTML, CSS, JavaScript, React, and Redux, decreasing page load times by 40% using **lazy loading**.
- Designed robust backend systems with Node.js and Express, elevating server response times by 35%.
- Integrated MongoDB with Mongoose for efficient data modeling and querying, resulting in a 30% improvement in database performance and scalability.

Programmer Analyst

Cognizant Technology Solutions

December 2022 - April 2024, Noida

- Mastered the MERN stack through proactive learning, developing **responsive** and cross-browser compatible full-stack applications with React, Express.js, Node.js, MongoDB, Redux, and Redux-Saga.
- Enhanced performance by 45% with **debouncing** and **throttling**, streamlined development, and improved client satisfaction.
- Implemented **RESTful APIs** and integrated **JWT-based authentication**, ensuring secure data transactions and reducing unauthorized access incidents. Reduced page load time by 30% by making use of **pagination** and image sprites.

Programmer Analyst Trainee

Cognizant Technology Solutions

December 2021 - December 2022, Hyderabad

- Utilized front-end development technologies like HTML, CSS, JavaScript, and React.js to craft and implement interactive user interface web applications, enriching user engagement by 50%.
- Created efficient, **reusable components** based on user stories, reducing development time leading to cut in development costs by \$ 15000.
- Collaborated closely with cross-functional teams using **Agile methodologies**, resulting in faster iteration cycles and a 25% boost in feature delivery speed.

PROJECT

ECOMMERCE APP

srijan-vestiq.vercel.app/

• February 2025 - March 2025

- Architected responsive UIs using HTML, CSS, JavaScript, React, and Redux, cutting page load times by 40% with **lazy loading**.
- Designed robust backend systems with Node.js and Express, improving server response times by 35% with **debouncing concept**.
- Identified and troubleshoot issues with front-end/back-end code, reducing bug resolution time by 50%.

DOCTOR APPOINTMENT APP

srijan-appoint.vercel.app/

• December 2024 - January 2025

- Developed a MERN application with admin & user panels, authentication, **appointment booking**, and doctor applications, enhancing user engagement by 60%.
- Built a scalable backend with Node.js, Express.js, and Mongoose, optimising database queries and reducing response times by 40%.
- Engineered a responsive UI using ReactJS, Ant Design, and Redux Toolkit, improving frontend performance by 50% with **memoization**.

MOVIE APP

msdb-app.netlify.app/

• October 2024 - October 2024

- Developed a React.js web application to dynamically display comprehensive movie details, increasing user retention by 60%.
- Integrated a robust movie API with RESTful services, ensuring 99% uptime and real-time data updates.
- Utilized **React Hooks** like useState, useEffect and optimized JSX, CSS, and JS, improving UI responsiveness.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

SRM Institute of Science and Technology • Chennai • 2021 • 84.98%

CERTIFICATIONS

Css HackerRank Certificate, JavaScript HackerRank Certificate, Responsive Web Design: HTML5+CSS3 by Udemy
